BUILD STRENGTH. ANYWHERE.

7-DAY HOME WORKOUT PLAN

BEGINNER-FRIENDLY / BODYWEIGHT / FLEXIBLE

TRAIN SMART. STAY CONSISTENT.

01 **Full-body movement**

02 **Strength + mobility**

03 **Recovery built in**

A ready-to-share workout guide for your fitness community.

No gym required. Just space, consistency and safe technique.

FITNESS IS A JOURNEY, NOT A RACE.

YOUR 7-DAY ROUTINE

Work at a comfortable effort. Rest 45-90 seconds between sets.

MON

FULL BODY A

Squat 2x10 | Wall push-up 2x8 | Glute bridge 2x12

TUE

CARDIO + CORE

Brisk walk 20 min | Dead bug 2x8/side

WED

FULL BODY B

Reverse lunge 2x8/side | Incline push-up 2x8

THU

ACTIVE RECOVERY

Easy walk 15-25 min | Gentle mobility 10 min

FRI

FULL BODY A

Squat 2x10 | Wall push-up 2x8 | Glute bridge 2x12

SAT

MOVEMENT DAY

Dance, cycle or walk 20-30 min at easy pace

SUN

REST + RESET

Rest, hydrate and prepare for the next week

Optional: reduce to 1 set per exercise if you are just starting.

HOW TO DO THE MOVES

Control each rep; smooth movement matters more than speed.

SQUAT

Stand with feet comfortable width apart.

Bend hips and knees; stand back up smoothly.

WALL / INCLINE PUSH-UP

Hands on a stable wall or sturdy surface.

Keep body aligned and bend elbows slowly.

GLUTE BRIDGE

Lie on your back, knees bent and feet planted.

Lift hips gently, then lower with control.

REVERSE LUNGE

Step back and lower only as far as comfortable.

Use a wall for balance if needed.

DEAD BUG

Lie on back with knees bent above hips.

Move opposite arm and leg slowly; switch sides.

MAKE EVERY WEEK COUNT

A practical guide to build consistency without overdoing it.

BEFORE YOU START

Warm up 5 minutes: easy marching, arm circles, gentle steps.

Choose versions you can perform with steady, comfortable form.

PROGRESSION GUIDE

Week 1: Learn movements and use 1-2 sets.

Week 2: Add reps only if the exercises feel comfortable.

Week 3+: Consider an extra set or a slightly harder variation.

RECOVERY + SAFETY

Allow recovery between strength sessions; sleep and eat regularly.

Stop if you feel sharp pain, dizzy or unwell.

For injuries or medical concerns, ask a qualified professional.
